

# Forecast Success

Do you want to forecast your grade in this class? Here is a list of successful behaviors, things you can **DO**, that will help you excel in this class. Write true or false beside each of the statements describing the way you will prepare and study in this class.

1. I will always come to class prepared with paper, pen, calendar, textbook... T F
2. I will go over the syllabus and enter all the important class dates on my calendar. T F
3. I will attend every class. T F
4. I will do the homework...and all the assignments as scheduled. T F
5. I will go to office hours or tutoring to discuss anything I do not understand. T F
6. I will rework the homework assignments if I get them incorrect. T F
7. I will spend some time studying the course materials at least five days a week. (outside of class time) T F
8. I will teach the concepts and ideas I am learning in this course to friends, myself in the mirror or imaginary students... T F
9. I will make flash cards or other study aides to help me learn better. T F
10. I will make diagrams, drawings or mind maps of information discussed in class. T F
11. I will actively participate in study groups to review what I am learning. T F
12. I will rework all the quiz and test items I miss before the next class session. T F
13. I know I can make an A in this class and will put forth effort to do so. T F

Add up the number of **True** responses and use the chart below to forecast your grade.

# of True Responses	Grade Forecast
10 – 13	A 
6 – 9	B 
4 – 5	C 
2 – 3	D 
Less than 2	F 

You can **change your grade forecast** at any point by changing your behavior to make more of the statements true.

In addition, between now and next class, connect with a classmate and come up with 3 things you can do to help each other earn a good grade. Exchange contact information, and write your commitment on the other side of this paper.
